

THE FRASER DIFFERENCE

2017 BOND

Proposed improvements at Fraser High School are:

- Resurface parking lots which are crumbling and cracked.
- Renovate Fraser Performing Arts Center: replace auditorium seating and stage curtains.
- Renovate pool area: replace tile, install climate control system to reduce humidity, install sound-absorbing ceiling, and replace touch-pads and scoreboards.
- Renovate locker rooms, which were installed when the building opened in 1970.
- Add flexible furniture to allow for collaboration, small group instruction and personalized learning.
- Renovate athletic facilities: resurface tennis courts; improve access road to the soccer field and baseball diamonds north of the school; install brick dugouts for the softball field, replace aging scoreboards at the soccer field, baseball and softball fields, and football field; and replace football field surface in 2021.
- Upgrade elevator, which was installed when the building was opened in 1970.
- Purchase laptops for all 9-12 grade students. Students have outgrown the iPads and a laptop will allow for consumption and creation of projects and assignments.
- Update classroom technology and infrastructure when it reaches the end of its useful life.
