

## Twain Weekly update for the week of 5/18/2020

Good evening, Twain Families.

### Finishing Strong, Looking Ahead

As we move into the final weeks of the school year, I want to remind our families that it is important that our students continue to participate in their learning through their virtual class meetings and work posted in itslearning. Students' participation throughout the closure will be reflected on modified report cards. And students with minimal participation during this time will likely see the impact of that lost learning next year. We need all of our Comets to end the year best prepared for the next grade level. We continue to keep track of students who aren't logging in and completing assignments, and we will continue to reach out to these families to ensure that our students and families have all that they need to be successful.

I posted a short video to our school Facebook page yesterday with some reminders about making sure our students are finishing these final four weeks of learning strong and answering some frequently asked questions about when to pick up your student's supplies and what we'll be doing to honor our 6<sup>th</sup> grade students. If you have not seen that video yet, please find it here for: <https://www.facebook.com/TeamTwainFraser>
