

Attention Disney Families & Friends

In order to provide the safest school possible, Disney will be implementing the use of our “Safety Door” and “Sally Port.”

Effective immediately, the door to the main office will remain closed throughout the day and visitors will remain in the “Sally Port” until we are able to “buzz” them in to the office. It will be necessary for you to sign in and provide identification (if necessary) before you may enter the main area of the building.

We sincerely hope families remain comfortable coming to the school. In no way do we want this to prevent families from feeling welcome. As always, parents are encouraged to communicate with staff whenever the need arises. We do encourage you to make an appointment with staff to better communicate with you about your child. We understand that exceptions will arise, but please contact teachers for meetings whenever possible.

All buildings in Fraser Public Schools are utilizing this system for the safety and security of all of our children.

We appreciate your patience and understanding!
