

RFB for Piano Lab Equipment

Q & A

Bids Due June 1, 2023, at 10:00am local time

1. The bid package asks for 24 headphones without a microphone for student use. The KLC student system, and expansion kits, come with specific microphone/headphones that have a microphone attached. It cannot be removed.
My question is: Is Fraser looking for an additional 24 headphones without a microphone, or was this a mistake? Please advise. **The Piano Lab needs a total of 25 headphones for our 25-station Piano lab (24 student and 1 teacher station). If the student system and expansion kits already come equipped with microphone/headphones. There is no need then, for an additional 24 headphones.**
